### **George Washington Bridge Way**

78 east to 95 north to the upper level of the George Washington Bridge. Go across the bridge in the second to right lane and take the exit for 178<sup>th</sup> street which also states the Henry Hudson Pkwy. The right lane will merge off to the right for the parkway, immediately after the split stay in the right lane, there will be a break in the jersey wall for the 178<sup>th</sup> St. exit (do not stay straight from there because it will put you in the bus terminal). On 178<sup>th</sup> follow to the end and make a right turn onto Amsterdam Ave. Follow Amsterdam to 110<sup>th</sup> st and turn left. In one block, the next light, make a right turn onto Columbus Ave. Follow Columbus Ave to 57<sup>th</sup> St and turn right onto 57<sup>th</sup> St. Take 57<sup>th</sup> St to 11<sup>th</sup> Ave and make a left turn. Take 11<sup>th</sup> Ave to 45<sup>th</sup> St and at this intersection you will inbound on your IVIS. Refer to the 43<sup>rd</sup> street bay numbered map to determine where you will need to be. The bay numbers are assigned as that the first number of the bay is the door number to enter the garage and the following 2 numbers would be the actual dock door number. If you are unsure and it seems confusing call the dispatch number and ask. 212-631-6238.

### **The Way Back**

Make your way east one block for 10<sup>th</sup> Ave utilizing 44<sup>th</sup> St. or 42<sup>nd</sup> St. Take a left turn on 10<sup>th</sup> Ave. Follow 10<sup>th</sup> Ave all the way up to 179<sup>th</sup> St. and make a left turn and then stay to the left lane and once you cross over Fort Washington Ave stay to the left for the George Washington Bridge/ 95 south. Follow 95 south to 78 west.
